London, UK

Frontend Engineer – Focused on UI, Design Systems, and DX

Frontend Engineer with 20+ years of experience building user-facing products, internal tools, and scalable design systems.

Special interest in **typography, accessibility, and usability**. Known for a proactive approach to enhancing user experience and developer workflows.

Skilled in **React, TypeScript, CSS Modules, TailwindCSS, shadcn/ui, Storybook, Web Components, and UI architecture**. Experienced in cross-functional collaboration and delivering high-impact frontend solutions.

Experience

Frontend UI Engineer, EyeLinkMedia Ltd, UK — 2020–2025

Developed and maintained **web-facing applications**: landing pages, deep link pages, and generators for video previews and Open Graph images.

Built **internal tools** for moderation, marketing, influencer workflows, and developer operations.

Led **design system** and **component library development** using React, TypeScript, TailwindCSS, shadcn/ui, Storybook, and Web Components.

Authored internal documentation and enhanced both UX and DX across teams.

Advocated for typography, accessibility, and usability, driving user-first UI improvements.

Delivered responsive interfaces, intuitive flows, and scalable solutions for user-facing products and internal platforms.

Frontend UI Team Leader, Badoo, UK — 2019–2020

Led a team of 6 UI developers working across multiple products and platforms.

Managed team workload, provided mentorship, and facilitated collaboration within cross-functional teams. Focused on delivering consistent, maintainable UI solutions on time while supporting team growth.

Led the TypeScript adoption initiative, defining migration strategies and driving implementation across projects.

Frontend UI Engineer, Badoo, UK — 2016-2019

Delivered UI/UX development for Desktop Web, Mobile Web, and React Native applications, as well as contributing to the design system. Technical stack consisted of React, JavaScript, CSS/SCSS/LESS and React Native.

Focused on improving product quality while reducing maintenance costs through clean, maintainable code and reusable components.

Contributed to cross-platform consistency and collaborated closely with design and backend teams.

Skills

Frontend

React, TypeScript, JavaScript, TailwindCSS, CSS Modules, Web Components

Tooling & Libraries

Storybook, Jest, React Testing Library, shadcn/ui, Bootstrap and similar

UX & UI

Design Systems, Accessibility (WCAG), Responsive Design, Usability

Developer Experience

Documentation, Component Libraries, Collaboration Tools

Education

Mari El State Technical University

Studied Computer Science and Software Development (2003–2006)

Public Speaking

Apr 2019, Moscow, Russia, Mobile JS Meet-up:

Building UI in React Native: fast and painless

Oct 2016, Moscow, Russia, Badoo Tech Meet-up

BEM, Modules, Component Relationships

Aug 2016, London, UK, London CSS Meet-up

The Magic of Infinite Scroller
